24th April 2018

Dear Sir/Madam,

As the Waste Education and Minimisation Officer for Resource Recovery Solutions (Derbyshire) I'm writing to make you aware of a funding opportunity for environmental projects in your local community.

Working as a waste disposal contractor for Derbyshire County Council we are keen to encourage environmental work in Derbyshire. To assist local groups with environmental projects we have a yearly fund of up to £1,000. Applications are open to any community organisation, school or charity located in the area surrounding Clover Nook Industrial Estate - please find enclosed an application form, the deadline date for applications is the 30th June 2018.

Applications for funding must:

- Directly benefit people living in the local neighbourhood.
- Show that the project and/or activity has been developed and designed by local people.
- Be used for the purchase or refurbishment of community assets, accessible to the widest number of people within the local community, but not the purchase of "services" (with the exception of installation or delivery costs).
- Show that the project will be complete by the end of March 2019.

The funding is not available for:

- The purchase of "services" (with the exception of the costs of installation or delivery).
- Replacing, enhancing or subsidising any council service or statutory service (e.g. provision of skips or the cost of one off "clean ups")
- Purchasing an asset, the provision of which, is the responsibility of the Council or another statutory body.
- Items primarily religious or political in nature.

Applications will be judged on their ability to achieve the best value for money in terms of impact on the local environment and reach in the local community. If you have any queries about your application or would like more information please contact emma.ray@renewi.com or call 01332 545689.

Yours faithfully

Emma Ray
Waste Education and Minimisation Officer
